THE KALI TRIBES

Everywhere around the world, 'tribe' means 'community.' Tribe is identity, tribe is part who we are. At our Tribal Kinetix camps, students are placed into different Tribes, or teams. Tribes will compete with each other at different tribal games throughout the week. The goal is to foster a sense of community within a community, a sense of healthy competition, fair play and integrity.

Animals have been used to describe different values and teachings in cultures around the world. Whether First Nation, African, Indian, Polynesian or Oriental, our Tribal Kinetix Animals represent traits and teachings we can strive for.
