Use and Care of the Glenboro Kinsmen Community Hall for Any Booking for Permitted Use:

- Instructions on how many tables and chairs you require must be given to the Hall Committee a week in advance, including a layout plan, if applicable. We will endeavor to arrange the tables and chairs to your specifications but you may need to move them yourself when you set up for use. Please do not drag tables when moving them, to reduce the likelihood of damage to the floors. **Do not move tables or chairs in front of exits or the hallway that leads to the bathrooms. In case of emergency, chairs should not be so close to the southeast exit that when people stand they might push them in front of the exit.**

- The Hall will have been generally cleaned prior to the commencement of your Rental Agreement, however any specific requirements for cleaning is the responsibility of the Renter. You may request extra time prior to your event/function for an additional \$50 fee per day.

- Please do not create holes when decorating , you may use tape or blue tack. Please remove tack and tape when you are taking down your decorations. Any other signs must have stands or be attached to tables or chairs with tape/blue tack that will not leave a residue.

- When using tape on the floors (for flu/vaccine clinics), it must be removed directly after use of the Hall is complete. Even if the tape is designed to be residue-free, no one can guarantee this and we want to avoid damaging the finish on the floors with prolonged contact. If you must use tape on the dance floor, please place only small pieces lightly - that area of the floor is more likely to be damaged.

- Major spills must be cleaned up promptly with dry wet mop. **Do not use any cleaners or leave any water puddles on the dance floor.** Any use of other cleaners, wax, cornmeal, etc. is prohibited.

*** Please be courteous and respectful when you are using the Hall**
